### **Amendments to the Claims**

This listing of claims will replace all prior versions, and listings, of claims in the application.

### **Listing of the Claims:**

1. (currently amended) A stable skin care product in a dual compartment package comprising:

a first composition comprising about 0.001% to about 10% of a retinoid selected from the group consisting of retinyl esters, retinol, retinal, and mixtures thereof;

a second composition comprising about 0.0001% to about 50% of at least one retinoid booster selected from the group consisting of CITRAL, CITRONELLOL, COCAMIDE DEA, DAMASCONE, GERANIOL, 18b GLYCERHETINIC ACID, 8 OH QUINOLINE, N LAURY SARCOSINE, LINALOOL, ALPHA IONONE and LINSEED OIL;

a first compartment for storing the first composition, wherein the first compartment keeps the first composition out of contact with oxygen; and

a second compartment for storing the second composition, the first and second compartments being joined together,

Attorney Docket No.: J6666(C)  
Serial No.: 10/007,869  
Filed: November 8, 2001  
Confirmation No.: 6511

further wherein the first and second compositions while in the dual compartment package are in separate containers,

the first composition not being chemically degraded by the second composition and not coming into contact with the second composition when being stored in the first compartment to prevent booster enhanced destabilization of retinoid wherein the second composition potentiates the action of the retinoid upon contact.

2. (original) The stable skin care product of claim 1 wherein the second composition has at least two retinoid boosters in an amount of about 0.0001% to about 50%.

3. (canceled)

4. (original) A method of conditioning skin, the method comprising applying topically to the skin the product of claim 1.

5. (original) A method of mimicking the effect on skin of retinoic acid, the method comprising applying to the skin the product of claim 1; wherein said effect is chosen from the group consisting of treatment of acne, wrinkles, psoriasis, age spots, discoloration, and combinations thereof.

6. (currently amended) A stable skin care product in a dual compartment package comprising:

Attorney Docket No.: J6666(C)  
Serial No.: 10/007,869  
Filed: November 8, 2001  
Confirmation No.: 6511

a first composition comprising about 0.01% to about 1% of a retinoid to provide a first benefit; said retinoid selected from a group consisting of retinyl esters, retinol, retinal, and mixtures thereof;

a second composition comprising about 0.0001% to about 50% of at least one retinoid booster to boost the first benefit;

said retinoid booster selected from the group consisting of CITRAL, CITRONELLOL, COCAMIDE DEA, GERANIOL, 18b GLYCERHETINIC ACID, 8 OH QUINOLINE, N LAURY SARCOSINE, LINALOOL, and LINSEED OIL;

a first compartment for storing the first composition, wherein the first compartment keeps the first composition out of contact with oxygen; and

a second compartment for storing the second composition, the first and second compartments being joined together,

further wherein the first and second compositions while in the dual compartment package are in separate containers[.].

the first composition not being chemically degraded by the second composition and not coming into contact with the second composition when being stored in the first compartment to prevent booster enhanced destabilization of retinoid wherein the second composition potentiates the action of the retinoid upon contact.

Serial No.: 10/007,869  
Filed: November 8, 2001  
Confirmation No.: 6511

7. (original) The stable skin care product of claim 6 wherein the second composition has at least two retinoid boosters in an amount of about 0.0001% to about 50%.

8 (canceled)

9. (original) A method of conditioning skin, the method comprising applying topically to the skin the product of claim 6.

10. (previously presented) A method of mimicking the effect on skin of retinoic acid, the method comprising applying to the skin the product of claim 6 ; wherein said effect is chosen from the group consisting of treatment of acne, wrinkles, psoriasis, age spots, discoloration, and combinations thereof.

11. (currently amended) A stable skin care product in a dual compartment package comprising:

a first composition comprising about 0.001% to about 10% of a retinoid to provide a first benefit; said retinoid selected from a group consisting of retinyl esters, retinol, retinal, and mixtures thereof;

a second composition comprising about 0.0001% to about 50% of at least one retinoid booster to boost the first benefit;

said retinoid booster selected from the group consisting of CITRAL, CITRONELLOL, Climbazole, COCAMIDE DEA, DAMASCONE, GERANIOL, 18b GLYCERHETINIC

ACID, 8 OH QUINOLINE, N LAURY SARCOSINE, LINALOOL, ALPHA IONONE and  
LINSEED OIL;

a first compartment for storing the first composition, wherein the first  
compartment keeps the first composition out of contact with oxygen; and

a second compartment for storing the second composition, wherein the second  
compartment keeps the second composition out of contact with oxygen;  
further wherein the first, and second or both compartments comprise aluminum; the first  
and second compositions while in the dual compartment package are in separate  
containers,  
-and the first and second compartments are joined together;

the first composition not being chemically degraded by the second composition  
and not coming into contact with the second composition when being stored in the first  
compartment to prevent booster enhanced destabilization of retinoid wherein the  
second composition potentiates the action of the retinoid upon contact.

12. (original) The stable skin care product of claim 11 wherein the second composition  
has at least two retinoid boosters in an amount of about 0.0001% to about 50%.

13 (canceled)

Filed: November 8, 2001  
Confirmation No.: 6511

14. (original) A method of conditioning skin, the method comprising applying topically to the skin the product of claim 11.

15. (previously presented) A method of mimicking the effect on skin of retinoic acid, the method comprising applying to the skin the product of claim 11; wherein said effect is chosen from the group consisting of treatment of acne, wrinkles, psoriasis, age spots, discoloration, and combinations thereof.

16. (currently amended) The stable skin care product according to claim 11,  
wherein said retinoid booster is Climbazole; and  
wherein said product further comprises a second retinoid booster selected from the group consisting of alpha-ionone, damascenone, and mixtures thereof.

17. (previously presented) The stable skin care product of claim 1, further comprising about 0.5 % to about 50 % of an emollient selected from the group consisting of esters, fatty acids, alcohols, polyols, and hydrocarbons.

18. (currently amended) The stable skin care product of claim 1, wherein said booster is alpha-ionone.

Serial No.: 10/007,869  
Filed: November 8, 2001  
Confirmation No.: 6511

19. (previously presented) The stable skin care product of claim 1 wherein the first composition and second composition are utilized simultaneously.

20. (previously presented) The stable skin care product of claim 6 wherein the first composition and second composition are utilized simultaneously.

21. (previously presented) The stable skin care product of claim 11 wherein the first composition and second composition are utilized simultaneously.

22. (previously presented) The stable skin care product of claim 19 wherein from about 1 to about 5 ml of the first composition and second composition are used.

23. (previously presented) The stable skin care product of claim 20 wherein from about 1 to about 5 ml of the first composition and second composition are used.

24. (previously presented) The stable skin care product of claim 21 wherein from about 1 to about 5 ml of the first composition and second composition are used.
